Any man who professes to understand all trades and sciences, assumes to impose an absurdity upon the public. On the same principle, any medicine which professes to cure all diseases, is unworthy the slightest confidence, and should at once be denounced as a quack nostrum-The Græfenberg Family Medicines do not assume to cure all liseases with one remedy. They have eleven different medicines each adapted to its peculiar disease; and time has proved, beyoud a question, the efficacy and certainty of these preparations. Their list comprises the following medicines: GRÆFENBERG VEGETABLE PILLS;

MARSHALL'S UTERINE CATHOLICON; GRÆFENBERG SARSAPARILLA: GRÆFENBERG PILE REMEDY: GRÆFENBERG DYSENTERY SYRUP; GREEN MOUNTAIN OINTMENT; GREFENBERG CHILDREN'S PANACEA; GRAFFENBERG CONSUMPTIVE BALM: GREFENBERG EYE LOTION;

Arrival of the Mail.

EASTERN DATES TO MARCH FIFTH. The clipper ship Argo, Capt. C. Ballard, arrived at this port on Thursday morning, the 21st inst. in fourteen days and six hours from San Francisco bringing three passengers and the United States mails. By this arrival we have received dates from San Francisco to April 6, Panama to March 15, New York to March 7, and Liverpool to February 26. In the supplement of to-days paper will be found a full summary of the European news, by which it will be seen that the war feeling, though kept under and denied was far from extinct. The London Times, which ought to be well posted in European affairs,

talks very gravely of the crisis which is approaching. From California we learn that the assembly had by a majority of nine given its assent to the dismemberment of California out of the counties South of Monterey, Buena Vista and Tulare. This was regarded by many as a move in the direction of founding a slave state on the Pacific. The first submarine cable for the Pacific coast had

been received at San Francisco, and had been laid by the Alta Telegraph Company across the straits of Carquinez at Benicia.

Washington is still the absorbing theme of conversaa punishment upon Key. Our newspapers, also, have taken sides in this matter; and two of them, the Times and Evening Post, have had quite a fierce controversy over it—the former journal tacitry inflicted upon him, the wrong done Mr. Sickles were not of a character which should entitle IAm to

or under the stern behests of the law, the theory of the Post is undoubtedly right. But philosophy and w are not constituents of the original nature of man. We are all more or less the creatures of im-pulse; and it will, I think, be difficult to convince a jury of his countrymen that Mr. Sickles-provoked as he had been, and goaded to madness as he was at the moment by seeing the destroyer of his household flaunting in his face the seducer's signal to his wife —committed, in killing that seducer, a deliberate murder. There is nothing that I can see in the act of Mr. Sickles that should raise it above the offence, f offence it be, of justifiable homicide. And such, I think, will be the general verdict of the public when the excitement which now exists has subsided, whatever may be the result of the Grand Jury's action in

HENRY L. FLISWORTH'S WILL-The will of Hon. L. Ellsworth was proved to-day. It is estimated that Mr. Ellsworth was worth \$800,000 at the time of his death. His immense land speculations at the West, now in cultivated farms, proved immensely profitable to him. The remarkable part of his will is, that it gives to Yale College seven-eighths of his great estate! The provisions of his will are: I. \$25,000 in trust to his son, Henry W. Ells-

II. \$25,000 to his daughter, wife of Roswell Smith,

III. \$25,000 to the heirs his son Edward. IV. \$1,500 annually to his vife.

The remainder of his property, amounting to about \$700,000, he gives to Yale College; and this sum amounts to more, probably, than the present entire worth of that corporation.—Hartford Times,

ould man thirty first class frigates; and after a year's training, we have no doubt they would compare fa-vorably with any men afloat. We have in New England alone, native seamen enough to man any navy that the resources of the country could produce in five years. Our magnificant whaling fleet has in it a class of men, inured to war, -men, whose familiarity with danger quickens all their faculties,-men accustomed to self-reliance and who can vie with the smartest naval sailors in the handling of ships. When we say they are inured to war—we mean war with the monsters of the deep, who requires more skill and ac-tivity than sponging, loading, running out, pointing, and firing a gun, or in using small arms. These, with our fisherman, two classes of which our naval authorities know little and appear to care less, comprise the men who, in any navel warfare, must sustain the honor of our flag affeat. They are native
